The Examination Library is managed by the Programme Officer and contains all submission documents, representations and information relating to the examination. It will be updated as further documents are submitted. Documents can be downloaded from the examination website. In the run up to the examination paper copies can be provided if necessary, by contacting the Examination Office, C/O Banks Solutions, 80 Lavinia Way, East Preston, West Sussex, BN16 1DD

Important Notes

- Participants should only respond to the questions which directly relate to their previously submitted written representations on the plan. Please clearly indicate in your statement(s) the question(s) you are answering, clearly referencing the specific Policy.
- Further statements should be proportionate in length to the number of questions being answered and should not, in total, exceed 3,000 words per Matter.
- The plan is being examined as submitted by the Council. Therefore, at this stage, it is not necessary to consider the merits for development of sites not included in the plan ("omission sites"). Should it be determined that there is a need for additional or different sites to be allocated, we will, in the first instance, ask the Council to consider how it would wish to proceed with the Examination.
- The questions concerning soundness are primarily focussed on the plan's policies. Insofar as they relate to the plan's soundness other elements of the plan, including the supporting text, will be considered as part of the discussion of the relevant policies.
