

Representations Made Under Regulation 20: Representor Index

The Representor Index lists every representor to the Local Plan publication.

Each representor has a unique “ID” number. The representors are set out in numerical ID number order in the Representor Index. Where an agent has been used, this is listed to the right of the representor name. Agents may have a unique ID number if they have previously signed up to the Spelthorne Local Plan database.

To search for a representor, place the cursor at the top of the index and use the search function “Ctrl + F”
